**Is it our responsibility
to protect local wildlife?**

In the news this week

Birdwatch is an annual UK-wide citizen science project held every January, inviting people to gather data to support the work of scientists. Both the Big Garden and the Big Schools' Birdwatch offer people the chance to count birds visiting gardens, playgrounds or school outdoor spaces. This simple activity helps identify bird populations and the most common species. The data collected then helps scientists monitor bird numbers and deduce whether any species are in decline.

Things to talk about at home ...

- Tell someone at home about Birdwatch 2025. Is it something your household would like to take part in?
- Discuss with someone at home about your local area and the wildlife found there.
- Do you know whether there are any schemes in place where you live to protect wildlife or nature?
